INGERSOLL RAND LAUNCHES MID TORQUE CORDLESS IMPACT WRENCHES & DRILL DRIVERS IN INDIA

Ingersoll Rand, a world leader in creating and sustaining safe, comfortable and efficient environments has launched recently their mid torque 160-175ftlb range cordless impact wrenches and ½" Drill/Driver.

The “W5000 Series” impact wrenches are the latest additions to the IQV20 Series that has been introduced over the course of the last several months, starting with the W7150 1/2" 20V High-Torque Impact tool. These are available in both industrial (continuous duty) and professional (intermittent duty) versions.

New D5140 ½" 20V Drill/Driver is designed specifically for professionals who require hard-working, long-lasting, multipurpose tools to power through tough jobs. It comes with 16position clutch for a wide variety of fastening applications. It can deliver 700 in-lb of torque for faster and easier operation.

These cordless tools features have high power, long life motor, high durability, light in weight, variable speed switch & ergonomic grip. These are ideal for non-precision assembly and maintenance applications.

The IQV20 Series of cordless tools now includes the world's leading 1/2" high-torque cordless impact, along with "professional" and "industrial" grade a mid-torque cordless impacts, drill/driver, ratchets and task light.
