Thermo King Unveils New Sustainable and Customer-Driven TK-Cool Series Solutions at Busworld 2015

New solutions with advanced features offer sustainability, reliability and operational efficiency

Mumbai, India, April 28, 2015 – [Thermo King](#), a manufacturer of transport temperature control systems for a variety of mobile applications and a brand of [Ingersoll Rand](#), announced the launch of two new innovative TK – Cool Series solutions at the Busworld exhibition on 28-30 April, 2015 in Mumbai. Thermo King’s new products - CS-1000 and CF-500 designed for the Bus Air conditioner market will cater to customer needs by driving energy and operational efficiency while providing precise, low-noise temperature control.

“Thermo King is the world leader in transport temperature control and we are committed to providing innovative products and sustainable solutions to our customers. With our new line up of products, we continue to invest in expanding our portfolio, enhancing our energy efficient solutions and building on our proven record of reliability. Our new customer and market-driven solutions are designed for cost effectiveness, optimal energy efficiency and performance,” said Sudarshan Ananth, Territory Vice President and Business Head – HVAC & Transport, India Climate Business Unit, Ingersoll Rand

The new products from the TK-Cool series, CS-1000 and CF-500 are widely applicable for light, medium and large bus coaches. The two new products launched under the CS series and CF series are designed to offer extraordinary performance, with high reliability and lightweight design, delivering outstanding value for operators. We will soon be introducing web enabled tracking services to our reefer customer to assist them in tracking performance of unit during its travel.

Key features: CS- 1000 and CF- 500

- Side- air intake ensures flexible applications
- Compact and streamlined design for higher system efficiency
- Skilled manufacturing one-piece frame for easier maintenance
- Thermo King compressor of highest reliability and performance

THERMO KING Open-Circuitless Compressor with high efficiency and low noise

News Release

- Improved condenser coil ensures high heat transfer efficiency

Thermo King currently operates 9 manufacturing facilities, 3 R&D centres of excellence and over 870+ dealers worldwide. Thermo King is committed to providing products that are ecologically responsible and high performers.

About Ingersoll Rand

[Ingersoll Rand](http://www.ingersollrand.com) (NYSE:IR) advances the quality of life by creating comfortable, sustainable and efficient environments.
