Trane® Celebrates 100-Year Anniversary with the Launch of Premium Air Conditioning Solution

Trane light commercial air conditioner offers 10-15 percent higher efficiency than traditional market offerings

New Delhi, 7 March , 2013 - [Trane](#), a leading global provider of indoor comfort solutions and services and a brand of [Ingersoll Rand](#), celebrates 100 years of customer-driven innovations at the 2013 ACREX India Exposition, held in Mumbai.

The company also is introducing **its next generation light commercial air conditioner**, which offers 10-15 percent higher efficiency than conventional units, raising the bar for efficiency, sustainability and reliability.

At the show, Trane is showcasing the following innovative, customer-driven new solutions that benefit industries that include healthcare, education, hospitality, retail, commercial, industrial and data center markets to create comfortable, efficient and productive environments:

Next-generation air conditioner light commercial unit – This highly efficient and sustainable solution features a reliable scroll compressor along with best-in-class airflow. This unit offers high ambient operation of up to 50 degrees C and has expanded system controls. This solution ensures better oil return algorithm and improved compressor reliability.

Air handling solution, CLCF Climate Changer™ – The innovative Trane® CLCF Climate Changer™ air handling solution offers 12 sizes, capable of addressing a wide range of applications for inline units and a wide array of fan and coil options. These next generation air handling units from Trane optimize performance and enhance comfort, while providing energy savings, lower installed costs, reliable indoor air quality and overall superior system performance.

Trane Tracer™ building controls – These innovative controls support virtually any application for a variety of building types, for both single and multiple building configurations.

Trane® Celebrates 100-Year Anniversary with the Launch of Premium Air Conditioning Solution – 2

“Trane air conditioning solutions have helped customers build sustainable structures for the past 100 years, and as we move into our second century, we are excited to play a leadership role in energy efficiency with the advancement of energy management services.” said Sudarshan Ananth, vice president of Trane in India.

“We are delighted to unveil the light commercial unit, a ground breaking air conditioning solution from our Chennai manufacturing facility which provides efficient and reliable cooling. Trane will continue to improve lives with innovative and efficient solutions.”

“Ingersoll Rand focuses on meeting India’s growing demand for localized solutions that advance the quality of life helping people live, work and play in comfortable environments,” said Venkatesh Valluri, chairman and president of Ingersoll Rand India.

“We are proud of our local Indian manufacturing facilities and customized solutions that are ‘by India’ and ‘for India.’ We remain committed to the India market through local manufacturing, innovation and market-centric product development backed by efficient and sustainable offerings to serve local customers.”
