Trane Expands its Residential Air Conditioning Portfolio Launches Three New Air Conditioning Units

- *Premium Hi Wall (HW5 Series), Premium Hi Wall Inverter (IN6 Series) and Concealed (CN2 Series) models added to the portfolio*
- *Aesthetically designed, technologically superior and also equipped with high quality heat exchangers to maximize performance and reduce power consumption in every season*

New Delhi, 14th March 2018: Trane, a leading global provider of indoor comfort systems and services and a brand of Ingersoll Rand, today expanded its residential air conditioning portfolio by launching three new products in India- Premium Hi Wall (HW5 Series), Premium Hi Wall Inverter (IN6 Series) and Concealed (CN2 Series).

Sharing his thoughts on the development **Mr. Sanjeev Seth, Country Leader - Climate Solutions -Trane & Thermo King, India Territory & SAARC Markets, API SBU at Ingersoll Rand** said, "At Trane we have always been committed to bringing our best products to India for our customers. HW5, IN6 and CN2, are geared to address the burgeoning residential and SME's market. The new products blend in energy efficiency, top notch cooling and cutting edge design elements to appeal to the refined tastes and demanding expectations of our customers. The expansion in our product portfolio is a testament to the strong traction our products have received in India. The new range will be available across our showrooms in India and we are optimistic of receiving a healthy response"

Product Information:

- **HW5- Premium Hi Wall Unit:**
 - Elegant Design , Aesthetically appealing with Curved Edge Design
 - Low noise with silent mode
 - Refrigerant leak deduct – safety feature which gets enabled when the unit deducts leak of refrigerant and switches the unit off
 - Electric fire proof box for safety

- **IN6 Series- Premium Hi Wall Inverter:** Is one of the industry's most efficient variable speed air conditioner, with a high energy efficiency. In addition to all 100% copper components and design aesthetics, this model comes with condensers optimized for optimal output making it capable to operate even in High ambient conditions.
 - Elegant Design with “Silver Edge” Contour Design
 - Eco mode for power saving
 - Reliable at High ambient
 - Low noise with silent mode
 - Refrigerant leak deduct – safety feature which gets enabled when the unit deducts leak of refrigerant and switches the unit off
 - Electric fire proof box for safety

- **CN2- Concealed:** Trane Concealed air conditioners are installed in the ceiling which blends with the interiors thereby giving it an unobtrusive look of central air conditioner. The outdoor units of a concealed air conditioner can be installed remotely up to 50 meters horizontally and 30 meters vertically. Its technological, aesthetic and year round performance with high air flow makes it fit for large showrooms, hotels, shops, resorts and offices. It is also equipped with high quality heat exchangers that maximize performance and reduce power consumption in every season.
